FREE Summer Library Science Program

MOST Program Visits All Onondaga County Libraries

SYRACUSE, NY (May 22, 2018) -- We all know that libraries rock, but how much do you know about rocks and sound? This summer, explore and investigate rock science and sound with ***Libraries Rock!***, a collaboration between the Milton J. Rubenstein Museum of Science & Technology (MOST) and Onondaga County Public Libraries (OCPL). MOST Science Educators are bringing a 45-minute science demonstration program to each library branch in Onondaga County in conjunction with OCPL's summer reading program.

The program will investigate different rock groups and the stories they have to share with us. Learn about sound waves, including how they are made and how they change. See and touch fossils, witness instruments in action, make waves and hear thunderstorms inside, all during the MOST's Summer Library Science Program.

This will be the MOST's ninth summer working with OCPL to present a science program based on its summer reading theme. Thanks to OCPL's sponsorship, the 45-minute interactive demonstration is FREE and open to the public.

Below is the 2018 program schedule, which is subject to change. Check with individual libraries to confirm dates and times. Additional details as well as a schedule can be found on the [OCPL website](#).

About the MOST

The Milton J. Rubenstein Museum of Science & Technology (MOST) is a hands-on science and technology museum for all ages. The MOST hosts numerous STEM education programs and community outreach events annually and is home to 35,000 square feet of interactive permanent and traveling exhibits, Silverman Planetarium, and Bristol IMAX® Omnitheater - the only domed IMAX theater in New York State. The MOST's vision is to be a preeminent science and technology center, inspiring all generations through hands-on education and entertainment.

The MOST is regularly open 10 a.m. to 5 p.m. Wednesdays through Sundays. The Museum is open on Mondays and Tuesdays for holidays and local school breaks. For hours and pricing, visit most.org or call 315.425.9068.
