## 2021 CNY Steamboat Challenge

### COMPETITION FORMAT

- Listen carefully for your team to be called up by the Event MC for your race.
- Each race begins at the Judge's start signal and once the race begins, no one must touch the steamboats.
- Each race will consist of two runs.
- Your boat's fastest time of the two runs will be entered onto your scoresheet.
- When you are not racing, please feel free to visit our breakfast table, science activity stations, or the Repair Station to perform boat repairs.
- Immediately following your race, you must visit the Judges Station to present your boat and answer questions about your boat's construction and what you've learned.
- This presentation score will be combined with your race time score, and the **top four highest-scoring** boats in each division (4th-6th grade, 7th-8th grade, and 9th-12th grade) will advance to the finals.
